

JEFFREY LOWE

Frederick, MD | (301) 676-3252 | jeffrey.lowe.dev@gmail.com

GitHub: <https://github.com/HuntedCode> | Portfolio: <https://jeffreylowe.dev/>

PROFESSIONAL PROFILE

Full-stack web developer with hands-on experience designing, building, and maintaining a production Django application with 40+ integrated systems. Strengths include system architecture, database design, API integration, and performance optimization. Self-directed and delivery-focused, with a track record of shipping scalable solutions for real users.

- Full-stack Django development | REST API integrations | Payments (Stripe/PayPal) | PostgreSQL/Redis | Performance optimization

TECHNICAL SKILLS

Languages	Python, JavaScript, SQL
Frameworks	Django, HTMX, React Native
Frontend	Tailwind CSS, responsive design systems
Backend	REST APIs, PostgreSQL, Redis
Tools & Platforms	Git, Render, Stripe, PayPal
Concepts	System architecture, API integration, performance optimization, background processing, modular design

SELECT PROJECTS

PlatPursuit — Full-Stack Web Application

Portfolio: <https://jeffreylowe.dev/> | GitHub: <https://github.com/HuntedCode>

Production Django-based platform with 40+ integrated systems, including dashboards, payment processing, and community features.

- Architected and developed a full-stack web application using Django, PostgreSQL, Redis, HTMX, and JavaScript
- Designed a modular 41-component dashboard system with dynamic configuration and partial rendering
- Diagnosed and resolved a production memory issue by optimizing database queries using selective loading strategies
- Built and integrated multi-source APIs (IGDB, PlayStation Network) with retry logic, rate limiting, and data reconciliation

- Implemented Stripe and PayPal payment flows supporting real-world transactions
- Developed Redis-backed background processing and notification systems to handle asynchronous workloads
- Authored 49+ technical documents covering system architecture, features, and engineering standards

LongWalk — Mobile Application (React Native MVP)

- Developed a gamified step-tracking mobile app using React Native
- Designed core gameplay and user engagement systems
- Applied cross-platform development practices for mobile deployment

PROFESSIONAL EXPERIENCE

Technology Consultant (Freelance) | Frederick, MD | 07/2020 – Present

- Delivered full-stack development solutions, including web applications, database design, and API integrations
- Designed scalable systems and implemented performance improvements for real-world applications
- Managed end-to-end development lifecycle from planning and architecture through deployment

Contract Management & IT Support Specialist | FoodPRO Corp | 02/2017 – 07/2020

- Automated business processes using Python and scripting tools, improving efficiency by 75%
- Streamlined workflows across departments through process and system improvements
- Supported technical operations and resolved system-related issues

Wastewater Operator (Level 2) | Frederick County Government | 09/2023 – Present

- Operate and troubleshoot SCADA-controlled systems; monitor real-time telemetry and respond to alarms
- Analyze trends in operational data to maintain performance targets and improve process reliability
- Train new operators and document procedures to support consistent operations

ADDITIONAL EXPERIENCE

- **Automotive Sales Consultant** — Rocket Auto (2021–2022)
- **Assistant Manager** — Black Hog BBQ & Bar (2015–2017)

EDUCATION

High School Diploma — Urbana High School, Ijamsville, MD
